# Synergy Book

# Synergy Book

Soluzioni coordinate, accostamenti creativi di colori e materie,  
con la certezza di poter scegliere il formato, la finitura e lo spessore più idoneo  
dal punto di vista tecnico ed estetico.

Un'infinità di formati, spessori e finiture di superficie, che esplorano ai massimi livelli  
tutte le potenzialità tecniche ed estetiche della ceramica di ultima generazione.  
La praticità di potersi affidare a un unico interlocutore, di comprovata affidabilità.

Coordinated solutions creatively juxtaposing colours  
and materials, available in the size, finish and thickness  
most appropriate for the technical and aesthetic  
requirements of your project.  
An infinite range of sizes, thicknesses and surface finishes  
exploring all the technical and aesthetic potential  
of new-generation ceramics.  
The practicality of working with a single partner  
of proven reliability.

Des solutions assorties ainsi que des mariages créatifs  
de couleurs et de matières ; tout cela avec l'assurance  
de pouvoir choisir le format, la finition  
et l'épaisseur les mieux adaptés autant du point  
de vue technique qu'esthétique.  
Le nombre infini de formats, d'épaisseurs  
et de finitions de surface décline  
tout le potentiel technique et esthétique  
de la céramique de dernière génération.  
La commodité de pouvoir faire confiance à un  
interlocuteur unique dont la fiabilité est reconnue.

Abgestimmte Lösungen, kreative Kombinationen von  
Farben und Materialien, mit der Gewissheit, die aus  
technischer und ästhetischer Sicht am besten geeignete  
Größe, Ausführung und Dicke wählen zu können.  
Unendlich viele Größen, Stärken und  
Oberflächenbehandlungen, die das technische und  
ästhetische Potenzial der neuesten Keramikgeneration auf  
höchstem Niveau ausloten.  
Die Bequemlichkeit, sich auf einen einzigen  
Gesprächspartner von erwiesener Zuverlässigkeit  
verlassen zu können.

# Incomparable crossover synergies.

Collezioni, materie e superfici possono **coordinarsi** componendo un **ineguagliabile assortimento** di materie, formati, spessori, finiture. Il **progettista** può così disporre della **miglior soluzione possibile**, per qualsiasi esigenza **tecnica** o **estetica**, di ogni progetto.

Collections, materials and surfaces can be **coordinated** to put together an **unmatched assortment** of materials, sizes, thicknesses and finishes. **Architects** are thus offered the **best possible solution** for the **technical** and **aesthetic requirements** of all their projects.

Il est possible **de jouer avec** les collections, les matières et les surfaces pour composer un **assortiment unique** de matériaux, de formats, d'épaisseurs et de finitions. Les **créateurs** peuvent ainsi disposer des **meilleures solutions possibles**, quelles que soient les exigences **techniques** ou **esthétiques** de leurs projets.

# Technical information and services.

## Delivered with **random veins**

### VENATURA DELLE LASTRE E APPONTAMENTO ORDINI

Per garantire la migliore resa estetica, le lastre Maxfine presentano un certo numero di facce differenti.

Nell'approntamento degli ordinativi, la selezione delle lastre rispetta la casualità tipica dei materiali naturali: non è perciò possibile garantire la continuità nel disegno della venatura tra i vari pezzi spediti. Maxfine nasce dalla combinazione della terra con il fuoco: l'eventuale continuità della venatura tra lastre diverse soggiace alla tipica tolleranza dei prodotti naturali.

### SLAB VEINS AND ORDER PREPARATION

To ensure optimal aesthetic performance, Maxfine slabs have a certain number of different faces.

During order preparation, slabs are randomly selected to reproduce the random nature of natural materials: this means we cannot guarantee continuity of the veins between the various different pieces shipped. Maxfine is produced by the combination of earth and fire: continuity of veins between slabs is subject to the tolerance typical of natural materials.

### VEINES DES DALLES ET PREPARATION COMMANDES

Pour garantir le meilleur rendement esthétique, les dalles Maxfine présentent un certain nombre de faces différentes.

Lors de la préparation des commandes, la sélection des dalles respecte le caractère aléatoire typique des matériaux naturels: par conséquent, il n'est pas possible de garantir la continuité du dessin des veines entre les différentes pièces expédiées. Maxfine naît de la combinaison de la terre avec le feu: l'éventuelle continuité des veines entre différentes dalles correspond à la tolérance typique des produits naturels.

### PLATTENMASERUG UND AUFTRAGSVORBEREITUNG

Für die beste Ästhetik bei der Anwendung weisen die Platten Maxfine eine gewisse Anzahl unterschiedlicher Oberseiten auf.

Bei der Vorbereitung der Aufträge entspricht die Auswahl der Platten dem typischen Zufallsprinzip der natürlichen Materie: es kann von daher keine Kontinuität bei der Maserung unter den verschiedenen versandten Stücken garantiert werden. Maxfine entsteht aus der Kombination von Erde und Feuer: eine ggf. vorhandene Kontinuität der Maserung auf den Platten unterliegt der typischen Toleranz der Naturprodukte.

## Nominal **sizes**

### TUTTI I FORMATI SONO NOMINALI.

FMG Fabbrica Marmi e Graniti si riserva la facoltà di modificare in qualunque momento le informazioni e le caratteristiche illustrate in questo catalogo, che non sono comunque da ritenere legalmente vincolanti. I colori e le caratteristiche estetiche dei prodotti sono quanto più possibile vicini a quelli reali, nei limiti consentiti dai processi di stampa.

### ALL SIZES ARE NOMINAL.

FMG Fabbrica Marmi e Graniti reserves the right to modify the information and the characteristics illustrated in this catalogue (which are in any case not legally binding) at any moment.

The colours and appearance features of the products are as close as possible to reality, within the limitation of the printing process.

### TOUS LES FORMATS SONT NOMINAUX.

FMG Fabbrica Marmi e Graniti se réserve la faculté de modifier à tout moments les informations et les caractéristiques figurant dans le présent catalogue, lesquelles n'engagent pas par le fabricant au plan légal. Les couleurs et les caractéristiques esthétiques sont fidèles aux couleurs et caractéristiques réelles dans les limites des procédés d'impression.

### ALLE FORMATE SIND NENNWERTE.

Die Firma FMG Fabbrica Marmi e Graniti behält sich vor, die in diesem Katalog enthaltenen Informationen und Eigenschaften jederzeit zu ändern; sie gelten auf keinen Fall als gesetzlich bindend. Die Farben und ästhetischen Eigenschaften der Produkte kommen innerhalb der Möglichkeiten der Druckverfahren den tatsächlichen Eigenschaften so weit wie möglich nahe.

## **Chromatic** variations

La trasformazione di materie prime naturali, associata all'utilizzo di innovative tecnologie di produzione brevettate, consente di ottenere materiali dalle elevate prestazioni tecniche, che si distinguono per i tipici effetti a tutto spessore da sempre prerogativa esclusiva dei marmi e delle pietre di cava.

Le variazioni cromatiche, di venatura e le piccole puntinature sono pertanto caratteristiche di alto pregio dei materiali FMG, ricercate e volute proprio al fine di ricreare la suggestione di una pavimentazione esclusiva, in cui si possa riscoprire la casualità e la bellezza dei materiali naturali. In ragione di quanto sopra i riferimenti cromatici presentati su cataloghi e campionature sono da intendersi puramente indicativi.

The processing of natural raw materials, combined with the use of leading-edge patented production techniques, makes it possible to obtain high-tech materials characterized by typical full-body effects, a feature that has always been the exclusive hallmark of quarried marble and stone.

Chromatic variations, veining and speckling are thus prized characteristics of FMG materials, designed and produced to recreate the fascination of exclusive floorings, that reveal the randomness and beauty of natural materials. On the basis of the above statements, the colour references in the catalogues and samples are to be considered as approximate.

La transformation de matières premières naturelles, allée à l'application de technologies de production d'avant-garde brevetées, permet d'obtenir des matériaux capables de performances techniques élevées se distinguant par leurs effets pleine masse typiques qui sont depuis toujours la prerogative exclusive des marbres et des pierres de carrière.

Les variations chromatiques, les veines et les petits points sont donc des caractéristiques de grande valeur des matériaux FMG, recherchées et voulues dans le but de recréer la suggestion d'un sol exclusif grâce auquel il est possible de redécouvrir l'impondérable et la splendeur des matériaux naturels. C'est la raison pour laquelle les références chromatiques présentées sur les catalogues et les échantillons ne sont données qu'à titre indicatif.

Die Umwandlung von natürlichen Rohmaterialien mit Hilfe von innovativen und patentierten Produktionstechnologien, ermöglicht die Herstellung von Materialien mit hoher technischer Leistungsfähigkeit, die sich durch die typischen vollgemischten Effekte unterscheiden und die seit jeher die charakteristische Besonderheit der Marmorsorten und der Steine aus dem Steinbruch sind.

Die farblichen Unterschiede, die Äderungen und die kleinen Punkte sind aus diesem Grund charakteristische Eigenschaften der Materialien FMG von besonderem Wert. Diese "Unvollkommenheiten" sind besonders gewählt und gewollt, um einen exklusiven Bodenbelag zu erzielen, bei dem die Zufälligkeit und die Schönheit der natürlichen Materialien voll zum Ausdruck kommen können. Angesichts der oben aufgeführten Tatsache sind die Farben der Kataloge und der Muster unverbindlich.

## Bookmatch

La mission di FMG è produrre materiali che rappresentino il massimo della bellezza, garantendo una disponibilità e una qualità che la pietra in natura non potrebbe offrire.

Block A e Block B sono due lastre che permettono di riprodurre l'effetto del marmo "a macchia aperta" con venatura speculare. È un effetto che in natura è decisamente raro e prezioso, perché richiede una speciale lavorazione, partendo da particolari blocchi selezionati.

Questi prototipi di bellezza "ideale", finora riservati a edifici di lusso, sono oggi disponibili con continuità grazie all'avanguardia tecnologica MAXFINE.

### IMPIEGO

Le lastre Block A-Block B possono essere posate a coppie, orientandole come in foto o capovolte. Sono utilizzabili anche con composizioni multiple, replicando il modulo più volte.

FMG's mission is to produce materials that are the tops in beauty, guaranteeing availability and quality such that stone, in nature, would be unable to offer.

Block A and Block B are two tiles that enable the effect of "book-matched" marble with mirror-image veining. This effect is definitely rare in nature and precious as it requires special processing, starting out from particular selected blocks.

These prototypes of "ideal" beauty, set aside so far for luxury buildings, are now available on a continuous basis thanks to MAXFINE avant-garde technology.

### USE

Block A and Block B tiles can be laid in pairs, positioning them as shown in the photograph or turned upside down. They can also be used with multiple compositions, replicating the module more than once.

La mission de FMG est de produire des matériaux d'une beauté maximale tout en garantissant une disponibilité et une qualité que la pierre naturelle ne pourrait pas offrir.

Les deux carrelages grands formats Block A et Block B permettent de reproduire l'effet du marbre au veinage spéculaire dit « à livre ouvert ». Un effet particulièrement rare et précieux dans la nature étant donné qu'il exige une fabrication spéciale à partir de blocs sélectionnés.

Ces prototypes d'une beauté « idéale », réservés jusqu'à maintenant aux édifices de luxe, sont aujourd'hui disponibles en permanence grâce à l'avant-garde technologique MAXFINE.

### UTILISATION

Les carrelages grands formats Block A-Block B peuvent être posés deux à deux soit en les orientant comme sur la photo soit en les retournant. En répliquant le module plusieurs fois, ils peuvent aussi être utilisés dans des compositions multiples.

Die Mission von FMG ist es Materialien herzustellen, die ein Maximum an Schönheit mit der Verfügbarkeit und einer Qualität kombinieren, die der Naturstein niemals bieten kann.

Block A und Block B sind zwei Platten, mit denen man den Effekt des Marmors "a macchia aperta" („offenes Buch“) mit spiegelgleicher Maserung reproduzieren kann. Es handelt sich um einen Effekt, der in der Natur sehr selten und wertvoll ist, denn hier bedarf es einer speziellen Verarbeitung, bei der von besonderen und ausgewählten Blöcken ausgegangen wird.

Diese Prototypen der "idealen" Schönheit, die bisher den Luxusbauten vorbehalten war, gibt es heute – dank des technologischen Fortschritts von MAXFINE - kontinuierlich.

### VERWENDUNG

Die Platten Block A-Block B können paarweise verlegt werden, indem sie wie im Bild ausgerichtet werden oder aber auch auf dem Kopf. Sie lassen sich auch bei Mehrfachkompositionen im Quadrat oder in der Reihe benutzen, wobei das Modul mehrere Male wiederholt wird..

L'esclusiva finitura eco-attiva ACTIVE SURFACES™ con **azione antibatterica, antivirale ed anti-inquinamento.**

ACTIVE SURFACES™ è l'unica ceramica eco-attiva certificata ISO e brevettata a livello internazionale, presente con successo da 10 anni in tutto il mondo.

## Efficace contro i virus SARS-CoV-2

Uno studio del Dipartimento di Scienze Biomediche, Chirurgiche e Odontoiatriche e del Dipartimento di Scienze Biomediche per la Salute dell'**Università degli studi di Milano** ha evidenziato la capacità di ACTIVE SURFACES™ di **eliminare il SARS-CoV-2 al 94% in seguito a sole 4 ore di esposizione a luce UV a bassa intensità** (luce naturale e lampadine tradizionali anche a bassa intensità).

The exclusive eco-active ACTIVE SURFACES™ finish with **antibacterial, antiviral and anti-pollutant action.**

ACTIVE SURFACES™ is the world's only internationally patented and ISO certified eco-active ceramic, successfully installed for a decade all over the world.

## Effective against the SARS-CoV-2 viruses.

A study conducted by the Department of Biomedical, Surgical and Dental Sciences and the Department of Biomedical Health Sciences of **Milan University** has revealed that ACTIVE SURFACES™ are capable of **eliminating 94% of SARS-CoV-2 viruses after only 4 hours of exposure to low intensity UV light** (natural light or a conventional lightbulb, even at low intensity).

Peut être doté de notre finition éco-active exclusive ACTIVE SURFACES™ : **un revêtement antibactérien, antiviral et anti-pollution.**

Utilisée avec succès dans le monde entier depuis 10 ans, ACTIVE SURFACES™ est la seule céramique éco-active certifiée ISO et brevetée à l'international.

## Efficace contre les virus ARS-CoV-2.

Une étude du département des sciences biomédicales, chirurgicales et dentaires et du département des sciences biomédicales pour la santé de **l'université de Milan** a montré qu'ACTIVE SURFACES™ était en mesure d'**éliminer le SARS-CoV-2 à 94 % après seulement 4 heures d'exposition à une lumière UV de faible intensité** (lumière naturelle et ampoules traditionnelles même à faible intensité).

In der exklusiven öko-aktiven Ausführung ACTIVE SURFACES™ hergestellt, **mit Bakterien, Viren und Schmutz abstoßender Wirkung.**

ACTIVE SURFACES™ ist die einzige öko-aktive Keramik mit ISO-Zertifikat und internationalem Patent, die seit 10 Jahren erfolgreich weltweit vertrieben wird.

## Wirksam gegen SARS-CoV-2-Viren.

Eine Studie der Abteilung für biomedizinische, chirurgische und zahnmedizinische Wissenschaften und der Abteilung für biomedizinische Wissenschaften für Gesundheit an der **Universität Mailand** hat gezeigt, dass ACTIVE SURFACES™ in der Lage sind, **SARS-CoV-2 nach nur vierstündiger Einwirkung von UV-Licht mit niedriger Intensität** (natürliches Licht und herkömmliche Glühbirnen ebenfalls mit niedriger Intensität) **um 94 % zu eliminieren.**

## 4 actions

**ANTIBATTERICA E ANTIVIRALE**

**ELIMINA I VIRUS E I BATTERI OLTRE IL 99%**

ANTIBACTERIAL AND ANTIVIRAL ACTION ELIMINATES VIRUSES AND BACTERIA OVER 99%

ACTION ANTIBACTÉRIENNE ET ANTIVIRALE ÉLIMINATION DE PLUS DE 99 % DES VIRUS ET DES BACTÉRIES

ACTIVE SURFACES<sup>TM</sup> è l'unica ceramica al mondo a possedere tutte le proprietà fotocatalitiche non solo con luci UV e solare, ma anche con luci LED, mantenendo inoltre la propria efficacia antibatterica anche al buio. L'azione di ACTIVE SURFACES<sup>TM</sup> è costante e non si esaurisce nel tempo.

ACTIVE SURFACES<sup>TM</sup> is the only ceramic porcelain in the world to retain all its photocatalytic properties not only under UV light and sunlight, but also under LED lights, maintaining its antibacterial effectiveness even in the dark. The action of ACTIVE SURFACES<sup>TM</sup> is constant and lasting.

ACTIVE SURFACES<sup>TM</sup> est la seule céramique au monde à posséder toutes les propriétés photocatalytiques non seulement sous les rayons UV et la lumière solaire, mais aussi sous éclairage LED, ce qui lui permet de conserver son efficacité antibactérienne même dans l'obscurité. L'action d'ACTIVE SURFACES<sup>TM</sup> est constante et dure dans le temps.

ACTIVE SURFACES<sup>TM</sup> ist weltweit das einzige Keramikprodukt, welches seine photokatalytischen Eigenschaften nicht nur bei UV- und Sonnenlicht, sondern auch bei LED-Beleuchtung in vollem Umfang dauerhaft garantiert. Darüber hinaus bleibt die antibakterielle Wirksamkeit auch bei Dunkelheit erhalten. Die Wirkung von ACTIVE SURFACES<sup>TM</sup> ist konstant und lässt auch im Verlauf der Zeit nicht nach.

# Safe & sanitizable. **Forever**

CERAMICA E GRES PORCELLANATO DI ALTA QUALITÀ.  
LE SUPERFICI PIÙ SICURE E IGIENIZZABILI

Natura, tecnologia, scienza e design.

Le **superfici ceramiche di altissima qualità** Maxfine, FMG, Iris Ceramica sono compatte e impermeabili, perchè nascono da minerali puri pressati e sinterizzati a oltre 1200°C.

**La scelta migliore per durata, sicurezza, igiene e bellezza.**

TOP QUALITY CERAMIC  
AND PORCELAIN.  
THE SAFEST,  
MOST SANITISABLE  
SURFACES

Nature, technology,  
science and design.

**Top quality ceramic surfaces** by Maxfine, FMG, and Iris Ceramica are compact and impermeable, because they're made from pure minerals pressed and sintered at more than 1200°C.

**The best choice,**  
for durability, safety, hygiene  
and beauty.

CÉRAMIQUE ET GRÈS CÉRAMÉ  
HAUT DE GAMME.  
LES SURFACES LES PLUS SÛRES  
ET LES PLUS FACILEMENT  
LAVABLES

Nature, technologie,  
science et design.

Dans la mesure où elles sont fabriquées à partir de minéraux purs pressés et frittés à plus de 1200°C, **les surfaces céramiques haut de gamme** MaxFine, FMG et Iris Ceramica sont compactes et imperméables. **Le meilleur choix en termes de longévité, de sécurité, d'hygiène et de beauté.**

HOCHWERTIGE KERAMIK  
UND FEINSTEINZEUG.  
DIE SICHERSTEN UND  
HYGIENISCHSTEN OBERFLÄCHEN

Natur, Technik,  
Wissenschaft und Design.

Die **hochwertigen Keramikoberflächen** Maxfine, FMG, Iris Ceramica sind kompakt und wasserdicht, da sie aus reinen Mineralien hergestellt werden, die bei über 1200°C gepresst und gesintert werden. **Die beste Wahl für Haltbarkeit, Sicherheit, Hygiene und Schönheit.**

LASTRE IN CERAMICA TECNICA CON LE CARATTERISTICHE DEL PORCELLANATO - TECHNICAL CERAMIC SLABS WITH THE CHARACTERISTICS OF PORCELAIN

Classificazione secondo norme UNI EN 14411 gruppo BIa o ISO 13006 Allegato G gruppo BI a UGL  
Classification in accordance with UNI EN 14411 standards BIa group or ISO 13006 Annex G standards BI a UGL group

- \* I prodotti con assorbimento < 0,5 sono classificati secondo le norme UNI CEN “Fully vitrified tiles” e secondo le norme ASTM “Imprevious tiles”  
The products having an absorption < 0,5 are classified according to the UNI CEN standards “Fully vitrified tiles” and according to the ASTM standards “Imprevious tiles”
- \*\* Varia secondo la finitura di superficie - It can vary according to the surface finish

N.B: I valori di resistenza allo scivolamento, coefficiente di attrito statico o dinamico, riportati sul catalogo, sono da ritenersi puramente indicativi e non vincolanti. Ogni eventuale specifica necessità dovrà essere da noi confermata al momento dell'ordine e comunque sempre prima della posa. La trasformazione di materie prime naturali, associate all'utilizzo di innovative tecnologie di produzione, consente di ottenere materiali dalle elevate prestazioni tecniche che si distinguono per i tipici effetti da sempre prerogativa dei materiali naturali. Le variazioni cromatiche, di venatura e la piccola puntinatura sono pertanto caratteristiche di alto pregio dei materiali FMG.

NB: Slip resistance values, coefficient of static or dynamic friction, in the are purely indicative and not binding. Any specific requirements must be confirmed by us at the time of ordering and in any case before installation. The processing of natural raw materials, combined with the use of leading-edge patented production techniques, makes it possible to obtain hightech materials characterized by typical full-body effects, a feature that has always been the exclusive hallmark of quarried marble and stone. Chromatic variations, veining and speckling are thus prized characteristics of FMG materials.

ANM.: Die Werte für die Rutschfestigkeit, also des statischen oder dynamischen Reibungskoeffizienten, die im Katalog aufgeführt sind, sind als unverbindliche Richtwerte anzusehen. Alle spezifischen Anforderungen müssen von uns bei der Bestellung und in jedem Fall vor der Verlegung immer bestätigt werden. Die Umwandlung von natürlichen Rohmaterialien mit Hilfe von innovativen und patentierten Produktionstechnologien, ermöglicht die Herstellung von Materialien mit hoher technischer Leistungsfähigkeit, die sich durch die typischen vollgemischten Effekte unterscheiden und die seit jeher die charakteristische Besonderheit der Marmorarten und der Steine aus dem Steinbruch sind. Die farblichen Unterschiede, die Äderungen und die kleinen Punkte sind aus diesem Grund charakteristische Eigenschaften der Materialien FMG von besonderem.

Wert. N.B: Les valeurs de résistance au glissement, le coefficient de frottement statique ou dynamique, indiqués sur le doivent être considérés comme purement indicatifs et ne sauraient engager notre responsabilité. Toutes les éventuelles spécifications nécessaires devront faire l'objet d'une confirmation de notre part au moment de la commande et en tout état de cause avant la pose. La transformation de matières premières naturelles, allée à l'application de technologies de production d'avant-garde brevetées, permet d'obtenir des matériaux capables de performances techniques élevées se distinguant par leurs effets pleins masse typiques qui sont depuis toujours la prérogative exclusive des marbres et des pierres de carrière. Les variations chromatiques, les veines et les petits points sont donc des caractéristiques de grande valeur des matériaux FMG.

LASTRE INDUSTRIALI A TUTTA MASSA IN GRÈS PORCELLANATO TECNICO - FULL-BODY INDUSTRIAL SLABS IN TECHNICAL PORCELAIN STONEWARE

Classificazione secondo norme CEN gruppo BI EN 176 e ISO 13006 All. G gruppo BI a UGL

Classification in accordance with CEN standards BI EN 176 and ISO 13006 All. G standards BI a UGL

\* I prodotti con assorbimento < 0,5 sono classificati secondo le norme UNI CEN “Fully vitrified tiles” e secondo le norme ASTM “Imprevious tiles”

The products having an absorption < 0,5 are classified according to the UNI CEN standards “Fully vitrified tiles” and according to the ASTM standards “Imprevious tiles”

\*\* Varia secondo la finitura di superficie - It can vary according to the surface finish

N.B: I valori di resistenza allo scivolamento, coefficiente di attrito statico o dinamico, riportati sul catalogo, sono da ritenersi puramente indicativi e non vincolanti. Ogni eventuale specifica necessità dovrà essere da noi confermata al momento dell'ordine e comunque sempre prima della posa. La trasformazione di materie prime naturali, associate all'utilizzo di innovative tecnologie di produzione, consente di ottenere materiali dalle elevate prestazioni tecniche che si distinguono per i tipici effetti da sempre prerogativa dei materiali naturali. Le variazioni cromatiche, di venatura e la piccola puntinatura sono pertanto caratteristiche di alto pregio dei materiali FMG.

NB: Slip resistance values, coefficient of static or dynamic friction, in the are purely indicative and not binding. Any specific requirements must be confirmed by us at the time of ordering and in any case before installation. The processing of natural raw materials, combined with the use of leading-edge patented production techniques, makes it possible to obtain hightech materials characterized by typical full-body effects, a feature that has always been the exclusive hallmark of quarried marble and stone. Chromatic variations, veining and speckling are thus prized characteristics of FMG materials.

ANM.: Die Werte für die Rutschfestigkeit, also des statischen oder dynamischen Reibungskoe.zienten, die im Katalog aufgeführt sind, sind als unverbindliche Richtwerte anzusehen. Alle spezifischen Anforderungen müssen von uns bei der Bestellung und in jedem Fall vor der Verlegung immer bestätigt werden. Die Umwandlung von natürlichen Rohmaterialien mit Hilfe von innovativen und patentierten Produktionstechnologien, ermöglicht die Herstellung von Materialien mit hoher technischer Leistungsfähigkeit, die sich durch die typischen vollgemischten E.ekte unterscheiden und die seit jeher die charakteristische Besonderheit der Marmorsorten und der Steine aus dem Steinbruch sind. Die farblichen Unterschiede, die Äderungen und die kleinen Punkte sind aus diesem Grund charakteristische Eigenschaften der Materialien FMG von besonderem.

Wert. N.B: Les valeurs de résistance au glissement, le coe.cient de frottement statique ou dynamique, indiqués sur le doivent être considérés comme purement indicatifs et ne sauraient engager notre responsabilité. Toutes les éventuelles spécifications nécessaires devront faire l'objet d'une confirmation de notre part au moment de la commande et en tout état de cause avant la pose. La transformation de matières premières naturelles, alliée à l'application de technologies de production d'avant-garde brevetées, permet d'obtenir des matériaux capables de performances techniques élevées se distinguant par leurs e.ets pleine masse typiques qui sont depuis toujours la prérogative exclusive des marbres et des pierres de carrière. Les variations chromatiques, les veines et les petits points sont donc des caractéristiques de grande valeur des matériaux FMG.
