HI-MACS[®]

Aurora Colours
From Marmo Collection

Natural Acrylic Stone[™]

Aurora

Aurora Colours

From the HI-MACS® Marmo Collection

The new Aurora Colours are inspired by the natural beauty of the Northern Lights. In brilliant waves over the sky the vibrant flow of Aurora Borealis is captured in these tones. With the semi-translucency of the colours Pavia and Aurora Cotton you can play with light effects giving dramatic results to integrate this natural phenomenon to your interior design.

The new Aurora Colours - an evolution of the Marmo Collection - combine aesthetics inspired by nature with all the benefits of the latest generation solid surface HI-MACS®: The completely non-porous material, which can be thermoformed allowing curved shaping, also allows for seamless surfaces and is easy to repair and clean.

Pavia M603 (12mm)

Aurora Cotton M615 (12mm)

Aurora Bianco M606 (12mm)

Aurora Blanc M617 (12mm)

Aurora Grey M608 (12mm)

Aurora Torano M601 (12mm)

Aurora Bisque M612 (12mm)

Aurora Umber M614 (12mm)

Sanremo M605 (12mm)

★ The basic HI-MACS® material is identical for every colour but it is important to note that darker and more heavily pigmented colours will show dust, scratches, haziness, marks left by hard water and other ordinary wear and tear more noticeably than lighter textured colours. Therefore colours marked with are less suitable for applications that are exposed to extensive surface contact such as worktops located in heavy traffic area.

≈ Marmo is a randomly veined product, specific fabrication guidelines need to be followed. Ask your sales partner for more information or visit himacs.eu.

💡 Colours with this mark have a semi-translucent effect, evident when combined with light sources.

* Aurora Colours are available in 12 × 760 × 3680 mm.

Pavia
