Trama design Studio63

La collezione Trama nasce dalla collaborazione tra Nic e Studio63, rafforzando il processo progettuale e la comprensione nell'interpretazione estetica e funzionale dei prodotti.

Le forme e i materiali sono infatti un omaggio alla storica collaborazione di Charlotte Perriand con Le Corbusier e Pierre Jeanneret, fautori di un nuovo modo di vivere la quotidianità.

La silhouette essenziale, frutto di uno studio di design funzionale per la semplificazione di forme di ispirazione asiatica, soddisfa il desiderio di un rapporto tra lifestyle contemporaneo e tradizione. Trama è composta da due elementi materici principali: il legno massello di Iroko con anima in acciaio e il lavabo in ceramica. La forma a compasso della struttura e la trama del ripiano in legno conferiscono alla consolle leggerezza ed eleganza. Il lavabo in ceramica è concepito come un contenitore morbido e fluido, con spazi funzionali oltre al tradizionale ripiano per la rubinetteria e al vano portaoggetti.

The Trama collection was born from the collaboration between Nic and Studio63, strengthening the design process and the understanding in the aesthetic and functional interpretation of the products.

The shapes and materials are in fact a tribute to the historic collaboration of Charlotte Perriand with Le Corbusier and Pierre Jeanneret, advocate of a new way to live the everyday.

The essential silhouette, result of a functional design study for the simplification of Asian-inspired shapes, satisfies the desire for a relationship between contemporary lifestyle and tradition. Trama is made up of two main textured elements: Iroko solid wood with a steel core and the ceramic washbasin. The compass shape of the structure and the wooden shelf texture give the console lightness and elegance. The ceramic washbasin is designed as a soft and fluid container, with functional spaces as well as the traditional shelf for the taps and a glove compartment.

Essential design, colourful attitude

In un tempo in cui tutto cambia è ancora possibile delineare uno stile dell'ambiente più intimo della casa, il bagno. Lo studio della materia, la ricerca di una geometria essenziale e di volumi puri ottenuti attraverso un processo di sottrazione, trova un nuovo potenziale espressivo in forme uniche, dove il colore si alterna alla purezza del bianco. Sono forme generose e accoglienti che comunicano la loro essenza, all'apparenza naturale e semplice, e invitano a entrare in un mondo archetipico. Sono oggetti originali che hanno personalità, carattere, energia e lasciano spazio a libere interpretazioni. Questa la filosofia per creare elementi capaci di entrare con naturalezza nel quotidiano.

In times where everything is changing, it is still possible to create a specific style for the most intimate space of the home: the bathroom. The study of materials and pursuit of simple lines and clean volumes created via a process of subtraction are endowed with renewed expressive power thanks to unique forms, where color alternates with the pureness of white. The generous, welcoming shapes embody their seemingly natural, simple essence, inviting you to enter an archetypal world. They are original objects, brimming with personality, character and energy, and leave ample space to freedom of interpretation. This is our philosophy for creating elements capable of merging seamlessly with the everyday.
